[1](#)1. (U) This is an action request. Embassy Rome, please see paragraph 3.

[1](#)2. (S) Background/Objective: In May 2008, the U.S. provided information to the GOI that the Italian machine tool manufacturer, CMS Industries, sold computer numerical controlled (CNC) processing machines to clients in Iran via Art Makina, a Turkish based intermediary (Ref A). Specifically, these items were 5-axis CNC processing machines designed to work with advanced materials such as aluminum and composite materials, and are controlled by the Nuclear Suppliers Group (NSG) and Wassenaar Arrangement (WA). After the initial delivery of the demarches (Refs A, B), Italian authorities notified Embassy Rome that several Italian firms were known as CMS and requested additional information in order to clarify the specific identity of the firm with of concern (Ref C). We now want to provide Italian officials with further information to specify which CMS Industries we are concerned with in order to facilitate the GOI's investigation.

[1](#)3. (S) Action Request: Request Embassy Rome approach appropriate host government officials to deliver talking points/non-paper in paragraph 4 below and report response. Talking points also may be provided as a non-paper.
